

MOLET

KITS CATALOG

THE PALLET REVOLUTION.

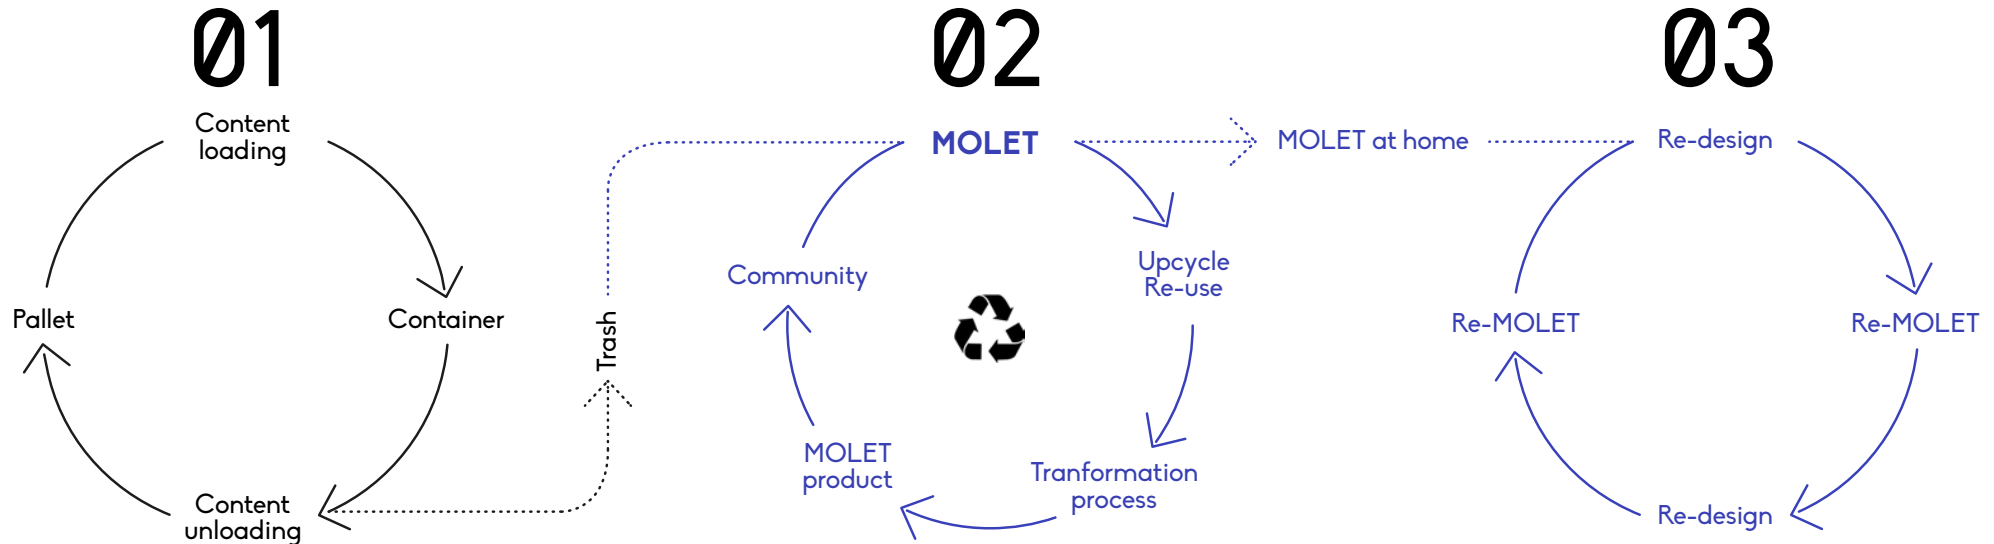

MOLET is Rethinking furniture.

It is a sustainable, modular and unique way to furnish our living and working spaces from upcycled wood pallets.

Is to Design and Do It Yourself.

All around the world, we see wood pallets operating in the same way. Once their shipment purposes is served, they are discarded.

We foster a new **collective consciousness** that enjoys the art of repurposing, giving these wood pallets a **second life.**

PRO- DUCTS

We are a unique, sustainable and modern company with a lot of ambition to change the way we furnish our surroundings. We are breaking the mould. We produce and distribute locally, as our core material - the pallets, can be found at many streets corners.
