modulate your pallet

THE PALLET  
REVOLUTION

MOLET™

# 2021 IMPACT REPORT

# MOLET IN SHORT

## WHO WE ARE

MOLET is a sustainable and social design platform.

We are creative professionals who combine architecture, design, sustainability and practical education. We understand how smart, honest and shared design can change and improve the mood and well-being of individuals and communities.

As a business with three profit lines (ecological, social and financial) we believe there is another way to think about the spaces around us and offer solutions to environmental and social challenges through business activity.

## MANIFESTO

**Modulate Your Pallet: A modular, sustainable and conscious way of furnishing our environment.**

It's time to get back to your roots, take a moment out of your routine to **Design and Do it Yourself**. Our philosophy begins with the journey of **Design Thinking** and **Mindful Making** to create something that is **one of a kind** from upcycled wood pallets.

Our projects are all about giving **new life to materials** and taking ownership of the **positive cycle** to **rethink the spaces** around us. We believe in honest, collaborative design, giving everyone the tools to make a positive social change and be a part of **The Pallet Revolution**.

MOLET is a **call to action**.

**Upcycle yourself. Upcycle your community.  
Upcycle your city.**

**Let's make a difference together.**

# TURNING THE REVOLUTION INTO REALITY

# IMPACT SUMMARY

## environmental

**1,568**

upcycled pallets

**20,384**

linear meters

**28,224**

wood weigh

**121**

saved trees (20 y.o.)

**2,461 m<sup>2</sup>**

forestland preserved

## social

**60**

impact workshops

**1,290**

participants

**24**

NGOs

**437**

donated furniture

**over 3,600**

people directly benefited  
from our social projects

## economic

**598**

total workshops

**21**

online via zoom

**1,555**

hours of workshops

**7,553**

total participants

**7,205**

upcycled furniture

# NEXT STEPS FOR 2022

We are aware that there is always potential for improvement. Here are the next objectives we'll strive to achieve:

- help our participants become more aware of sustainability;
- increase the number of NGOs, municipalities, companies and educational institutions we collaborate with;
- emphasize on IMPACT workshops;
- create tools for collecting social data to improve our impact measurement;
- increase the number of partners who will provide us with discarded pallets;
- establish long-term partnerships and create impactful projects for a few specific NGOs;
- continue evaluating and finding ways to improve our internal management, operation, production and impact.
